

# Kappa Delta Pi

Maria C.

## How did you find out about this opportunity?

I found out about KDP through my sister who graduated TCNJ and was involved in it. During my spring semester of my sophomore year, I was also invited and inducted into KDP.

## What should a student know about this opportunity?

As an education student, KDP is a great opportunity to get involved with an educational honor society. Our school's chapter helps educators with opportunities and knowledge that can help individuals within the field of education.

## When did you join?

I joined towards the end of my sophomore year. I believe there are specific requirements such as earning a certain GPA as well as a number of units an individual must complete in order to be invited into KDP.

[For specifics about requirements, see <http://kdpgamma.zeta.weebly.com/prospective-members.html>]

## What has your experience been like?

My experience with KDP has been very educational filled with many opportunities within the education field. I have had the opportunity to volunteer to help out within the society as well as attended professional developments such as a First Year Teacher panel. All of the insight has helped me learn more about teaching. I've also been given the opportunity to join the 23-24 eboard as the Director of Membership Involvement. I am so excited to work with everyone on the upcoming eboard and help KDP broaden to more students in the School of Education as well as help them.

## What should a student know about this opportunity?

This honor society is a great opportunity to be a part of as it helps build connections with other future or current teachers. It is also a good way to find great resources in the education field and gives you opportunities for growth as an individual working within the education field. It also is a high honor to become a member of KDP.

## What faculty or staff did/do you work with?

Our current advisors are Dr. Connolly [connollm@tcnj.edu] and Dr. Ammentorp [ammentor@tcnj.edu]
