

Literacy Advancement Project

Daisy H.

How did you find out about this opportunity?

I found out about this opportunity while searching for a job through the TCNJ student employment website. I applied for the job not knowing much about the program however I took great interest in it when I learned more about it.

What should a student know about this opportunity?

This opportunity might seem insignificant, however it really makes an impact on the student you tutor and many times, the few hours you spend with them gives them the attention they don't always receive in their classrooms and their homes.

What has your experience been like?

My experience in the LAP program has been positive due to the great friendships I have made with other tutors as well as the close bond I have created with the student I tutored.

When did you join?

I joined this program in the beginning of the Fall semester as a Freshmen however students can join the program at any point of the semester it is just preferable to join at the beginning to take advantage of more time spend with students. I joined this program because I wanted to expand my experience working with children of different ages.

Why should ROSCOE students be interested in this?

ROSCOE students should be interested in this program because this programs gives students the opportunity to gain experience working with the community of kids at Trenton.

What faculty or staff do/did you work with?

I worked with Professor Siani [Contact Dr. Lauren Foxworth for more information or to get involved foxwortl@tcnj.edu]
